Thank you

Future Sacramento funds an array of college opportunities. We help low-income 10th grade students from at-risk schools/homes gain admission to college and become first-in-family college graduates.

The Future Sacramento scholarship is a robust program that funds up to five years in college. We empower our students with the resources of mentoring, customized awards, renewable funding and financial aid advocacy.

Mission Statement: Future Sacramento provides volunteer mentoring and scholarship funding to local financially qualified students in support of their college education.
